

FS930E FS930E SHARP EDGE SERIES

The **FALL SAFE® FS930E - SHARP EDGE SERIES** is a lightweight, durable and compact fall arrest block. It has two aluminium alloy connectors and a energy absorber integrated. The retractable system is composed by a 25 mm dyneema webbing inserted in a plastic housing. This block is sharp edge tested. There are 3 connectors combinations.

Tested in a horizontal application, over a sharp edge.
